MARC BRANDY

DESCRIPTION:

Brandy obtained from the distillation of marc in our copper boilers. Before being bottled it is filtered at -5 ºC to ensure it maintains its crystalline quality, and to prevent sedimentation or clouding in the bottle.

Bottled in an original anti-slip glass bottle, incorporating a spout, natural cork and wood top.

Alcohol content: 40% Vol.

AWARDS

- **Gold Medal.** XX International Spirits Awards CINVE 2024. Madrid
- **Best Spirits 2022**. Spanish Association of Journalists and Writers of Wines and Spirits (AEPEV).

PREPARATION:

TASTING NOTES:

Colorless, steely, brilliant.

Aromas of good intensity, vegetal notes and stone fruit, clean and delicate alcohol that does not bother.

Dry encounter with good intensity on the palate, glyceric, unctuous, with a slight bitterness that adds personality. Silky, persistent finish.
